

VOLUNTEER OPPORTUNITIES  
MID-ATLANTIC GLEANING NETWORK

**Gleaning:** We have an ongoing opportunity for groups to join us and help us sort, bag, and/or box produce to be delivered to food banks, shelters, churches, and other feeding organizations in and around the metro DC area. These groups will be called upon to go with us to farms and orchards in the DC Metro area to harvest fresh produce after the farmer has completed his normal harvesting, so that we can move the left over fruits and vegetables to where the homeless, hungry, and poor can get it for their family.

Those who come out to help us will need to provide their own transportation to the farms and orchards. We may be able to organize days for groups from NPC to glean together.

**Office Work:** We have a need for someone with office and telephone skills, especially MS Access skills, to help us in our office bring our database up-to-date.
